# OUTDOOR MATTING

- A convenient and reliable solution for melting snow and ice from walkways to prevent slip and fall accidents.
- Unique reversible design permits electrical connection on right or left side of walkway.
- Water proof electrical connection system with GFCI switch prevents electrical shock hazard.
- 6' power cord (120 volts) with GFCI switch as well as a 6' extension cord are both sold separately.
- Up to 4 mats can be connected in sequence
- The mat will heat to approximately 40-45 degrees above ambient air temperature.
- Durable molded nitrile rubber construction is water proof, UV resistant ad flexible in freezing temperatures.
