Customer Focused

After witnessing the level of customer service provided to small and mid-sized OEM's and sub-contract manufacturers decline, Class C Components set out to distribute and deliver better solutions. Founded in 1995, Class C Components was built on the commitment to meet the industrial supply needs for OEM, sub-contract manufacturers and MRO markets; while providing a level of service, flexibility and product versatility that was unrivaled in the industry.

Today, Class C Components offers custom VMI Programs that can be created to contain the most diverse industrial product combinations.

Abrasives	Adhesives	Cable Management	Cutting Tools
Electrical	Fasteners	Fittings	Janitorial
Material Handling	MRO	Protective Caps and Plugs	Safety
Shipping Products	Tapes	Tools	3M

We distribute well over 100K SKUs.

Mission Statement

Class C Components is a customer focused Industrial Distributor who specializes in Vendor Managed Inventory programs and Supply Chain solutions for OEM's and sub-contract manufacturers. Our experienced and knowledgeable staff is committed to exceeding our customer's service expectations.

Quality Policy

Class C Components is committed to providing quality industrial products delivered on time at competitive pricing to all of our customers in the OEM, sub-contract manufacturers, and MRO markets. Class C Components employees strive to meet or exceed our Quality Objectives while continuously improving our processes and meeting applicable requirements.

ISO 9001 Certified Company

At Class C Components, we are about the customer. We are about providing an unrivaled experience in industrial distribution; we are about answering calls with voices, not voicemails; we are about "the personal touch!"

Quality • Service • Versatility

Quality • Service • Versatility

Quality, Service and Versatility is Our Business

Class C Components is an industrial distributor supplying standard and specialty products to meet the requirements of your facility from Production to MRO. We aim to provide responsiveness, excellent value and on-time delivery.

At Class C Components, our goal is to bring our passion for customer service, experience and knowledge to our customers to build partnerships that provide an excellent buying experience.

Wireless Warehouse

In 2017 Class C Components launched its fully integrated, state of the art wireless warehouse which operates in realtime and positively impacts:

-  **On-Time Delivery**
-  **Order Accuracy**
-  **Order Fulfillment Speed**

Orders are picked and packed at the warehouse, then transferred to the shipping station where they are verified and prepared for delivery.

Dock-to-Dock | Dock-to-Stock | VMI

By pairing the wireless warehouse to our Best-In-Class VMI programs, with iPhone scanning technology, Class C achieves the fastest order scanning and transmission speed in the industry.

Orders are typically scanned and transmitted back to our warehouse for processing **before** our VMI Procurement Specialists even leave your facility.

Is a VMI Program RIGHT FOR YOU?

If your company is looking to reduce accounting, inventory, freight, procurement, purchasing, receiving and sourcing costs as well as continuously improve your Supply Chain Process then a VMI consultation is the next step.

100% of our business is retaining your customer by not running you out of Class C parts.

The 1st company in Minnesota
to utilize iPhone scanning technology for VMI Fastener and Industrial Product Programs.

iPhones are used for scanning
allowing orders to be scanned and transmitted to you and Class C Components simultaneously before we leave your facility.

Each VMI Customer will have:
an outside sales rep, a lead and back-up inside sales rep and a VMI Procurement (scanning) rep.

ALL VMI POTENTIAL PRODUCT GROUP CANDIDATES:

On-Site Custom Packaging and Parts Kitting

Whatever you need...special packaging, kitting or light assembly, let Class C provide the kitting services needed to save labor time and money. Our Kitting and Packaging Department has the experience and abilities to accurately package simple or complex kits. Class C is able to provide bags, or kitting, that include a variety of components. Contact your Class C Sales Representative today to discuss your company's requirements.

Why Kit Parts?

- Streamline on and off-site installation processes by providing kits used in products final assembly.
- Prevent lost or misplaced parts by placing all necessary components needed for assembly in a single kit.
- Hardware packs can be included with products assembled by end users.

Customizable kitting solutions with Class C Components can include assembly instructions, bags, barcodes, labels, logos etc. Class C Components also offers kits within kits as well as light assembly kitting solutions.

Your Source for Fasteners

With Class C Components you have the weight and wisdom of over 200 years of fastener industry experience at your fingertips. Class C can suggest fastener alternatives to ensure all options have been reviewed to fit the application requirements. You will get the desired product when you need it, in the correct quantity, from our inventory at a competitive price.

Custom and Fabricated Parts

Class C Components offers product engineering assistance (Fit, Form and Function). We are ready to assist when your product needs a semi-standard, special or custom fabricated part.

Our versatility includes providing:

Cold Headed Parts | Fabricated Parts | Machined | Stamped | Molded | Combined Technologies

Coatings

- Adhesive Patch
- Chemical Protection
- Corrosion Protection
- Dip Spin
- Dry Film Lubrication
- Heat Dissipation

Platings

- Black Oxide Decorative
- Black Zinc
- Brass Bronze
- Clear Zinc
- Dip Spin
- Electroless Nickel/Aluminum
- Nickel
- Trivalent Zinc
- Wax Coatings
- Zinc, Yellow & Black
- Chromate and others

Drive Types

- Phillips and Frearson**
An X-shaped drive.
- Slotted**
A slot in the head.
- Combination**
A combination of slotted and Phillips drives.

- Socket, Hex or Allen**
A hexagonal hole for use with an Allen wrench.
- Square**
Also known as Robertson drive.
- Torx**
A six-pointed star pattern, specifically designed to prevent cam-out and stripped heads.

- One Way**
Installs with a normal slotted driver but can not be removed without special tools.

Head Styles

- Hex**
A hexagonal head.
- Hex Washer**
A hex head with built-in washer.
- Slotted Hex Washer**
A hex head with built in washer and a slot.
- Socket Cap**
A small cylindrical head using a socket drive.

- Button**
A low-profile rounded head using a socket drive.
- Flat**
Countersunk head with a flat top.
- Oval**
Countersunk head with a round top.
- Pan**
A slightly rounded head with short vertical sides.

- Truss**
An extra wide head with a rounded top.
- Round**
A domed head.

Thread Styles

- Sheared End Machine Screw**
- Wood Screw**
- Type A Self Tapping**
- Type AB Self Tapping**
- Type B Self Tapping**
- Hi-Lo Self Tapping**
- Type 25 Thread Cutting**

- Type 23 Thread Cutting**
- Type F Thread Cutting**
- Gimlet Lag Screw**
- Thread Rolling for Plastics**
- Tri-Lobular Thread Rolling**
- Type 2 Self Drilling**
- Type 3 Self Drilling**

- Deck Particle Board Screw**
- Round Type U Drive Screw**
- Dry Wall Screw Sharp Point**
- Dry Wall Screw Drill Point**
- Sharp Point Self Piercing**

Bolt Grade Markings and Strengths

STANDARD INCH BOLTS					
Head Marking	Grade and Material	Nominal Size Rang (Inches)	Mechanical Properties		
			Proof Load (psi)	Min. Yield Strength (psi)	Min. Tensile Strength (psi)
No Markings	Grade 2 Low or Medium Carbon Steel	1/4 thru 3/4	55,000	57,000	74,000
		Over 3/4 thru 1-1/2	33,000	36,000	60,000
Grade 5	Medium Carbon Steel, Quenched and Tempered	1/4 thru 1	85,000	92,000	120,000
		Over 1 thru 1-1/2	74,000	81,000	105,000
Grade 8	Medium Carbon Alloy Steel, Quenched and Tempered	1/4 thru 1-1/2	120,000	130,000	150,000
Stainless markings vary. Most stainless is non-magnetic.	18-8 Stainless Steel alloy 17-19% Chromium and 8-13% Nickel	All Sizes thru 1		20,000 Min. 65,000 Typical	65,000 Min. 100,000 - 150,000 Typical

METRIC BOLTS					
Head Marking	Grade and Material	Nominal Size Range (mm)	Mechanical Properties		
			Proof Load (MPa)	Min. Yield Strength (MPa)	Min. Tensile Strength (MPa)
8.8	Class 8.8 Medium Carbon Steel, Quenched and Tempered	All Sizes below 16mm	580	640	800
		16mm - 72mm	600	660	830
10.9	Class 10.9 Alloy Steel, Quenched and Tempered	5mm-100mm	830	940	1040
12.9	Class 12.9 Alloy Steel, Quenched and Tempered	1.6mm - 100mm	970	1100	1220
Stainless markings vary. Most stainless is non-magnetic. Usually stamped A-2	A-2 Stainless Steel alloy with 17-19% Chromium and 8-13% Nickel	All Sizes thru 20mm		210 Min. 450 Typical	500 Min. Typical

Your Source for Abrasives

We distribute abrasive products designed to meet the needs of both production applications and day-to-day MRO applications.

Choose from:

Belts • Bench Products • Discs • Hand Pads • Rolls • Wheels

For use on most materials including:

Ceramics • Composites • Ferrous and Non-Ferrous Metals • Glass
Leather • Plastics • Rubber • Specialized Alloys • Stone • Wood

Types of operations include:

Blending • Cleaning • Deburring • Grinding • Finishing • Polishing

- Belts
- Sheets
- Buffing Wheels
- Cut-Off Wheels
- Deburring Wheels
- Discs
- Finishing Wheels
- Flap Wheels
- Grinding Wheels
- Hand Pads
- Polishing Wheels
- Timesaver Belts
- Wheels
- Wire Brushes

Your Source for Adhesives

Class C Components stocks a wide array of adhesives to meet the requirements of your applications including: flexibility, strength, viscosity, environmental conditions and in certain cases can provide a more aesthetically pleasing look over fasteners.

- Aerosol
- Anaerobic
- Anti-Seize
- Cyanoacrylates
- Epoxy
- Hot Melts
- Light Cure UV
- Primers and Accelerators
- Retaining Compound
- Sealants
- Silicone
- Solvents
- Structural
- Thermally Conductive

Your Source for Cable Management

Class C Components distributes a wide variety of wire and cable management products used for bundling | identifying | protecting | securing your electrical and panel shop applications.

- Braided Sleeving
- Cable Tie Mounts
- Cable Ties
- Electrical Terminals
- Electronic Hardware
- Expandable Braided Sleeving

- Heat Shrink Tubing
- Identification Labels
- Split Loom
- Thermal Transfer Labels
- Wire
- Wire Duct

Your Source for Cutting Tools

Class C Components is your source for Drill Bits | End Mills | Saw Blades for Production and MRO. We feature products from quality manufacturers for all your metal working needs.

- Band Saw Blades
- Burrs
- Carbide Chucks
- Counterbores
- Countersinks
- Cut Off Wheels
- Drill Bits
- Drill Rod
- End Mills
- Hole Saws
- Key Stock
- Milling Cutters
- Reamers
- Shim Stock
- Slitting Saws
- Taps and Tooling

Your Source for Electrical

Class C Components distributes a wide range of electrical components from all the major manufacturers.

- Cable Ties
- Captive Screws
- Connectors
- Expandable Braided Sleeving
- Fuses
- Heat Shrink
- Labels
- Loom
- Spacers
- Stand Offs
- Tape
- Terminals
- Wire
- Wire Duct
